Project Name	Credit Card Approval Eligibility
Maximum Marks	2 Marks

Customer Journey Map

This Customer Journey Map shows the steps a customer follows while using our Credit Card Approval System. It helps us understand what the customer does, thinks, and feels during the application process. By studying this journey, our team can build a web application that is easy to use, provides quick AI-based approval predictions, and gives clear results to improve the overall customer experience.

Phase of Journey	Visit & Apply	Eligibility Check	Result
Actions <i>What does the customer do?</i>	• Open the web application. • Fills out the details of credit card application form.	• Submits the application. • Waits while the system checks the eligibility.	• View the approval/rejection result. • Finds the reason for the decision.
Touchpoint <i>What part of the service do they interact with?</i>	• Web Application home page. • Application form.	• AI/ML prediction system. • Status page.	• Result page(which is available in that same web application)
Customer Thought <i>What is the customer thinking?</i>	• Is the application easy to use? • What information do I need to provide? • Is my data secure?	• Will my application will be approved? • How long will it take? • Did I upload everything correctly?	• Why I am rejected (if rejected)? • Can I improve my eligibility?
Customer Feeling <i>What is the customer feeling?</i>	• Interested • Hopeful • Curious	• Anxious • Uncertain	• Happy if approved. • Disappointed if rejected.

Process Ownership <i>Who is in the lead on this?</i>	Web Application	AI&ML Prediction	Web Application
Opportunities <i>How can we improve this stage?</i>	• Simplify the application form. • Show eligibility requirements. • Guide users while filling the form.	• Speed up Verification. • Provide real-time status updates.	• Give suggestions to improve eligibility. • Send instant notifications through Mail/SMS.
