Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout to map out your Presentation Layer, Application Layer, and Data Layer. Create a Component Description Table to know about each layer and technologies used in that layer clearly.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
Presentation Layer	Provides the user interface where customers enter their personal and financial details and view the credit card eligibility prediction result.	HTML, CSS, JavaScript
Application Layer	Receives customer input, processes the request, sends the data to the AI & ML model for prediction, retrieves the result, and communicates with the database.	Python, Flask, Scikit-learn, Pandas, NumPy, Joblib
