

No. of Functional Features Included in the Solution

Date	28 June 2024
Team ID	SWTID-2026-1236
Project Name	Credit Card Approval Eligibility
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status (Done / In Progress / Pending)	Marks Contribution
1	User Input Form	Allows users to enter personal and financial details.	User Interface	Done	High
2	Input Validation	Validates required fields before processing.	Frontend	Done	Medium
3	Eligibility Prediction	Uses the AI & ML model to predict whether the user is Accepted or Rejected .	AI & ML Model	Done	High
4	Result Display	Displays the prediction result on the website within a few seconds	User Interface	Done	High
5	Backend Processing	Processes form data and communicates with the AI model and database.	Flask Backend	Done	High
6	Error Handling	Handles invalid inputs and system errors gracefully.	Backend	Done	Medium
7	Responsive Web Interface	Provides a simple and user-friendly interface for different screen sizes.	Frontend	Done	Medium

Feature Summary:

Metric	Count / Value
Total Features Planned	7
Total Features Implemented	7

Core / Must-Have Features	User Input Form, Eligibility Prediction, Result Display, Backend Processing
Additional / Nice-to-Have Features	Responsive UI, Error Handling, Input Validation
Features Tested & Verified	User Input Form, Eligibility Prediction, Result Display, Input Validation

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	4	Eligibility Form, Input Validation, Result Display, Responsive UI
2	Backend / Logic	3	Form Processing, AI & ML Prediction, Backend Business Logic
